

Week 1 - Introduction to Deep Learning

Saturday, July 25, 2020 4:02 PM

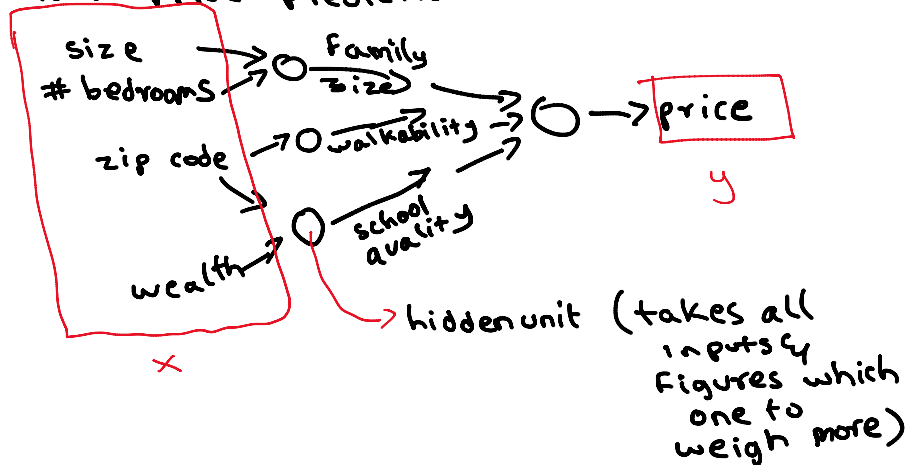

① What is a Neural Network

- Simplest Neural Network

Linear Regression (st. line)

- eg: House price prediction

② Supervised Learning with Neural Networks

Supervised Learning

| Input(x) | Output (y) | Application |
|-------------------|------------------------|---------------------|
| Home features | Price | Real Estate |
| Ad, user info | Click on ad? (0/1) | Online Advertising |
| Image | Object (1,...,1000) | Photo tagging |
| Audio | Text transcript | Speech recognition |
| English | Chinese | Machine translation |
| Image, Radar info | Position of other cars | Autonomous driving |

Standard NN
CNN
RNN
Custom Hybrid

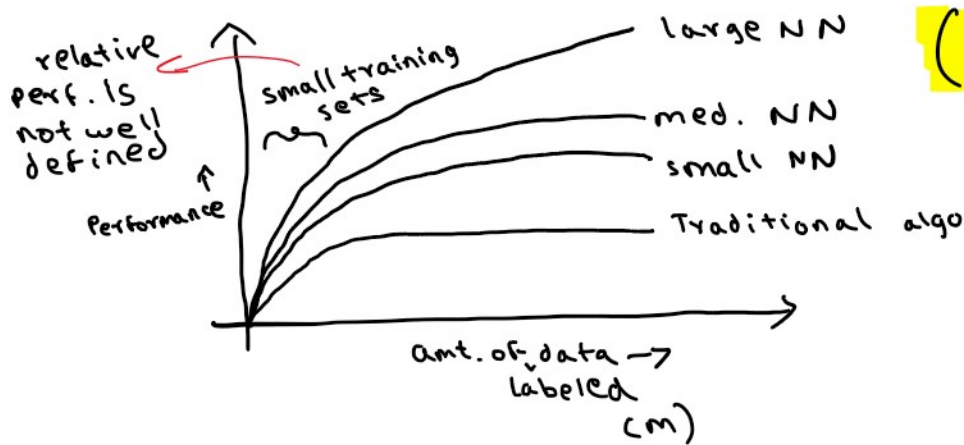

Structured Data

| | | | |
|------|------------|-----|-------|
| size | # bedrooms | ... | price |
| ... | ... | ... | ... |

Unstructured data

Audio, Image,
Text

③ Why is Deep Learning taking off?

- Data (more data)
- Computation (high perf. compute resources)
- Algorithms (improved algorithms)
(like sigmoid → ReLU)

→ Faster training speeds up

④ About this course

- Week 1: Introduction
- Week 2: Basics of NN programming
- Week 3: One hidden layer Neural Network
- Week 4: Deep Neural Network

Q: What is the correct technique of entering a numeric answer to a text box question? A: Coursera's software for numeric answers only supports '.' as the decimal delimiter (not ',') and require that fractions be simplified to decimals. For answers with many decimal digits, please use a 2 digits after decimal point rounding method when entering solutions if not mentioned in the question.

Q: What is the correct technique of entering a 1 element matrix? A: They should be entered as just the element without brackets.

Q: What does a A being a 3 element vector or a 3 dimensional vector mean? A: If not described a vector as mentioned in the questions is $A = \begin{bmatrix} \text{element1} \\ \text{element2} \\ \text{element3} \end{bmatrix}$.

Q: I think I found an error in a video. What should I do? A: First, post it on the Errata forum. We will try to implement your feedback as soon as possible. You could also send us an email at feedback@deeplearning.ai.

Q: My quiz grade displayed is wrong or I have a verification issue or I cannot retake a quiz. What should I do? A: Contact learner support. These queries can only be resolved by learner support and it is best if they are contacted directly. Do not flag such issues.
